NOTIFICATION OF TRANSMITTAL OF
INTERNATIONAL PRELIMINARY
EXAMINATION REPORT

(PCT Rule 71.1)

To:

LEE, Sang-Yong

4F., Byukcheon Bldg., 1597-5, Seocho-dong, Seocho-gu, Seoul
137-876, Republic of KoreaDate of mailing
(day/month/year) 10 DECEMBER 2004 (10.12.2004)Applicant's or agent's file reference
PCT03-027

IMPORTANT NOTIFICATION

International application No.

PCT/KR2003/001403

International filing date (day/month/year)

16 JULY 2003 (16.07.2003)

Priority date (day/months/year)

16 AUGUST 2002 (16.08.2002)

Applicant

SAMSHIN CREATION Co., Ltd. et al

1. The applicant is hereby notified that International Preliminary Examining Authority transmits here with the international preliminary examination report and its annexes, if any, established on the international application.
2. A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
3. Where required by any of the elected Offices, the International Bureau will prepare an English translation of the report (but not of any annexes) and will transmit such translation to those Offices.
4. **REMINDER**
The applicant must enter the national phase before each elected office by performing certain acts (filing translations and paying national fees) within 30 months from the priority date (or later in some Offices) (Article 39(1)) (see also the reminder sent by the International Bureau with Form PCT/IB/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary examination report. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details in the applicable time limits and requirements of the elected Offices, see Volume II of the PCT Applicant's Guide.

Applicant SAMSHIN CREATION Co., Ltd. et al		

1. This international preliminary examination report has been prepared by this International Preliminary Examining Authority and is transmitted to the applicant according to Article 36.

2. This REPORT consists of a total of 3 sheets, including this cover sheet.

☐ This report is also accompanied by ANNEXES, i.e., sheets of the description, claims and/or drawings which have been amended and are the basis for this report and/or sheets containing rectifications made before this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions under the PCT).

These annexes consist of a total of _____ sheets.

3. This report contains indications relating to the following items:

- I ☒ Basis of the report
- II ☐ Priority
- III ☐ Non-establishment of opinion with regard to novelty, inventive step and industrial applicability
- IV ☐ Lack of unity of invention
- V ☒ Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement
- VI ☐ Certain documents cited
- VII ☐ Certain defects in the international application
- VIII ☐ Certain observations on the international application

Date of submission of the demand 16 MARCH 2004 (16.03.2004)	Date of completion of this report 07 DECEMBER 2004 (07.12.2004)
Name and mailing address of the IPEA/KR  Korean Intellectual Property Office 920 Dunsan-dong, Seo-gu, Daejeon 302-701, Republic of Korea Facsimile No. 82-42-472-7140	Authorized officer PARK, Sung Ho Telephone No. 82-42-481-5619 

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/KR2003/001403

I. Basis of the report

1. With regard to the elements of the international application:*

- ☒ the international application as originally filed
- ☐ the description:
pages _____, as originally filed
pages _____, filed with the demand
pages _____, filed with the letter of _____
- ☐ the claims:
pages _____, as originally filed
pages _____, as amended (together with any statement) under Article 19
pages _____, filed with the demand
pages _____, filed with the letter of _____
- ☐ the drawings:
pages _____, as originally filed
pages _____, filed with the demand
pages _____, filed with the letter of _____
- ☐ the sequence listing part of the description:
pages _____, as originally filed
pages _____, filed with the demand
pages _____, filed with the letter of _____

2. With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item.

These elements were available or furnished to this Authority in the following language English which is

- ☐ the language of a translation furnished for the purposes of international search (under Rule 23.1(b)).
- ☒ the language of publication of the international application (under Rule 48.3(b)).
- ☐ the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3).

3. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:

- ☐ contained in the international application in written form.
- ☐ filed together with the international application in computer readable form.
- ☐ furnished subsequently to this Authority in written form.
- ☐ furnished subsequently to this Authority in computer readable form.
- ☐ The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
- ☐ The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.

4. ☐ The amendments have resulted in the cancellation of:

- ☐ the description, pages _____
- ☐ the claims, Nos. _____
- ☐ the drawings, sheets _____

5. ☐ This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**

* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this opinion as "originally filed," and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).

** Any replacement sheet containing such amendments must be referred to under item I and annexed to this report.

INTERNATIONAL PRELIMINARY EXAMINATION

International application No.

PCT/KR2003/001403

V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement**1. Statement**

Novelty (N)	Claims	1 - 22	YES
	Claims		NO
Inventive step (IS)	Claims	1 - 22	YES
	Claims		NO
Industrial applicability (IA)	Claims	1 - 22	YES
	Claims		NO

2. Citations and explanations (Rule 70.7)

The present invention relates to electrospinning device for nanofiber, comprising a spinning unit, on which a plurality of spinneret is installed ; a supplying unit to provide a polymer material to a said spinneret ; and a collector unit to collect spun filament having a fixed thickness, and is characterized by a disposed control unit which guides a stream channel so as to control repulsion and spreading of charged filaments produced between a said spinning unit and a said collector.

(1) reference is made to the following document ;

D1 : KR 2002-0093178 A

D2 : JP 03-161502 A

(2) Novelty and Inventive step

D1 relates to a process of combining melt-blown spinning and electrostatic spinning in which microfibers is produced by spraying melted polymer onto a collector under high voltage, and is similar to the present invention in that the electric field is formed between spinneret and collector by applying a high voltage. However, D1 does not disclose a means like a said control unit to control charged filaments.

D2 relates to a electrospinning device including spinneret made of polytetrafluoroethylene, describing a cage-type supplemental electrode in examples, however a component and working effect of a said electrode are not disclosed.

Therefore, claim 1 of the present invention relating to a disposed control unit to control stream channel of charged filaments produced between spinning unit and collector, claims 2-10 dependent of claim 1, claim 11 disclosing a structure of nozzle pack in nanofiber manufacturing device which relates to claim 1, and claims 12-22 dependent of claim 11 are considered to meet the requirement of PCT Article 33(2)-(3).

(3) Industrial Applicability

The subject matter of claims 1-22 is considered to be industrially applicable under PCT Article 33(4).
